The before listed entities are hereby collectively referred to as INDIE NEWS AND POLITICAL COMMENTARY and consists of a class of affected people with N members.

Demand

We the Plaintiffs/Petitioners, INDIE NEWS AND POLITICAL COMMENTARY, demand the Defendant, BIG TECH, give us \$1.6 billion in compensation for damages from defamation of character and antitrust violations. This is an official notice to settle a lawsuit. You will receive a printed copy of this letter and the last letter I sent via email, and you have one month to settle before this Petition is filed with the US Federal Court system.

63
64 **Cases**
65

- 66 A. In **Marsh v. Alabama, 326 U.S. 501 (1946)** the Court decreed the US Constitution is
67 supreme in Corporate towns and Corporate towns are not allowed to deny it's citizens
68 First Amendment rights.
69

70 **Statement of Points and Authorities**
71

- 72 1. The **First Amendment** to the US Constitution commands "Congress shall make no law
73 respecting an establishment of religion, or prohibiting the free exercise thereof; or
74 abridging the freedom of speech, or of the press; or the right of the people peaceably to
75 assemble, and to petition the government for a redress of grievances."
76 2. **47 US Code § 230 (a)(3)** finds that "The Internet and other interactive computer
77 services offer a forum for a true diversity of political discourse" and subsection (c) states
78 the intention of the section is 'Protection for "Good Samaritan" blocking and screening
79 of offensive material'.
80 3. **The Sherman Act of 1890** provides a "comprehensive charter of economic liberty
81 aimed at preserving free and unfettered competition as the rule of trade."
82 4. **52 U.S. Code § 20701** requires every officer of election shall retain and preserve
83 election related material for a period of twenty-two months from the date of any general,
84 special, or primary election of which candidates for the office of President or Vice
85 President.
86

87 **Arguments**
88

89 A. BIG TECH consists of a network of platforms that are not protected under 47 US Code §
90 230.

91 B. BIG TECH has unlawfully censored INDIE NEWS AND POLITICAL COMMENTARY'S
92 news that Chinese government spies and other hostile State actors have infiltrated Silicon
93 Valley and they have a network that reaches up to the White House.

C. B. BIG TECH is a Silicon Valley Monopoly.

D. BIG TECH is a community of families including children under age 13 and is too large to moderate.

E. BIG TECH takes on national security and election tasks.

F. BIG TECH is a Corporate Town.

G. BIG TECH censors on behalf of Democrat Politicians to censor Republicans and INDIE NEWS AND POLITICAL COMMENTARY and this is an illegal campaign contribution.

H. BIG TECH banned former US President Donald Trump to influence US politics.

I. BIG TECH unlawfully bans INDIE NEWS AND POLITICAL COMMENTARY for criticizing religion and politicians.

J. BIG TECH unlawful censored alleged COVID and Medical misinformation.

K. BIG TECH unlawful censored news, commentary, and critique of ballot harvesting and related election fraud.

L. BIG TECH censors US Citizen's speech on the behalf of foreigners and hostile foreign governments like China.

M. BIG TECH profited from enabling BLM riots and scam fundraisers on their platform.

N. BIG TECH profits from and props up Big Media who gas light with false claims that prevents citizens from getting fair trials.

O. BIG TECH fortified Biden and suppressed Trump in the 2020 Election in "Shadow Campaign" of election engineering.

P. BIG TECH biases search results in favor of Big Media and does not classify INDIE NEWS AND POLITICAL COMMENTARY as real news.

Q. BIG TECH has defamed and caused psychological and emotional injuries to INDIE NEWS AND POLITICAL COMMENTARY members as described in each member's "Declaration in Support of Petition".

R. BIG TECH caused \$1.6 billion damages to INDIE NEWS AND POLITICAL COMMENTARY and is liable for the damages.

S. This Court has jurisdiction over the questions of law at hand and this is the most suitable Court to hear these questions of Federal Law:

1. Does BIG TECH have a monopoly based on Silicon Valley?
2. Is BIG TECH a corporate town?

- 125 3. Is BIG TECH's used sophisticated AI algorithms to modify the public's behavior
126 through psychological manipulation protected under 47 US Code § 230?
127 4. Has BIG TECH unlawfully censored INDIE NEWS AND POLITICAL
128 COMMENTARY using 47 US Code § 230 on behalf of Democrats?
129 5. HAS BIG TECH caused damages to INDIE NEWS AND POLITICAL
130 COMMENTARY and are they liable for the damages?
131

132 **A. BIG TECH consists of a network of platforms that are not protected under 47 US Code**
133 **§ 230.**
134

135 47 US Code § 230 provides protections from for 'Good Samaritans' to filter offensive obscene,
136 lewd, lascivious, filthy, excessively violent, harassing, or otherwise objectionable material. BIG
137 TECH consists of networks of platforms that the gestalt is not covered under 47 US Code § 230
138 because acts by a monopoly to artificially preserve that status, or nefarious dealings to create a
139 monopoly, are not the actions of Good Samaritans because it would be a violation of the
140 Sherman Anti-trust Act.
141

142 **B. BIG TECH has unlawfully censored news that Chinese government spies and other**
143 **hostile State actors have infiltrated Silicon Valley with a spy network that reaches up to**
144 **the White House.**
145

146 Silicon Valley has been infiltrated by Russian and Chinese government spies who are
147 performing what the CIA calls Rob, Replicate, and Replace strategy to replace the US as
148 the world's number one superpower. Spies such as the notorious Chinese spy Fang Fang
149 who slept with the US House of Representatives member from the 15th District of
150 California, which is in Silicon Valley, have attained a spy network that reaches all the
151 way up to the White House. US President Joe Biden's son Hunter Biden is a notorious
152 crack addict who has sex with hookers while smoking crack. Hunter Biden has been in
153 the media for him taking millions of US dollars for the Chinese Government and the
154 Ukrainian energy firm Burisma to sell access to Joe Biden.
155

BIG TECH has unlawfully censored INDIE NEWS AND POLITICAL COMMENTARY by pulling advertising funds from channels critical of China, citing that the channels were "controversial". INDIE NEWS AND POLITICAL COMMENTARY's speech that was censored did not violate platform rules, BIG TECH reduced visibility and in cases such as articles about Hunter Biden's laptop that Hunter left at a laptop repair company but never picked up. Twitter censored the New York Post article "Smoking-gun email reveals how Hunter Biden introduced Ukrainian businessman to VP dad " in order to fortify Biden in the 2020 election and suppress Trump.

On Hunter Biden's laptop there exists an email with a business partner Hunter's called "the chief spy of China", a 29-year-old Chinese-American assistant named JiaQi Bao, assigned the president's son a Chinese-American secretary who was feeding him opposition research to help Joe Biden's 2020 election bid after the business venture collapsed in 2018, the Daily Mail reported Friday, May 7, 2021, and also revealed that day:

After launching his multi-million-dollar joint venture with CEFC, Hunter was assigned a 29-year-old Chinese-American assistant, JiaQi Bao, who quickly struck up a close and intriguing relationship with her Biden boss.

At first, emails show the New York-based Bao diligently scheduled flights, hotels, and even doctor's appointments for the president's son.

But mysteriously, the young assistant also sent him opposition research to help Joe Biden's 2020 election bid, urged him to take cash from the joint venture's accounts as the business collapsed and wrote flirty and personal messages and even ended up with Hunter's military dog tags in her New York apartment – the same tags he can be seen wearing in home-made porn videos he recorded on his laptop.

After the joint venture had dissolved, Bao emailed Hunter with a conspiratorial message encouraging him to help his father run for president and listing talking points to combat criticism of Hunter's dealings with the Chinese.

After partnering with Chinese oil giant CEFC in the multi-million-dollar deal, Bao was appointed as his secretary and assistant, acting as a go-between for his Chinese business partners, translating documents and performing clerical work for Hunter in the joint venture. As Hunter's joint venture with the Chinese began to crumble that month amid the arrests of its two leaders, Bao wrote one of her most surprising emails encouraging him to raid the coffers of one of Hunter and CEFC's joint corporate vehicles called Hudson West.

C. BIG TECH is a Silicon Valley Monopoly.

Big Tech is a monopoly in Silicon Valley California. About 86% of Silicon Valley votes for Democrats. Big Tech founders, Mark Zuckerberg, Jack Dorsey, and all know each other. Big Tech works as one to maintain their monopoly. The relationships of the higher ups in BIG TECH have metaphorically incestuous relationships. The come up in Silicon Valley you must do so through the circles under control of BIG TECH and their investors.

D. BIG TECH is a community of families including children under age 13 and is too large to moderate.

BIG TECH has been performing wide-scale psychological manipulation of the American public using advanced AI algorithms along with paid human predicted class classification to change the behavior of people to make their speech more advertiser friendly in the most countries as possible. A long time ago there used to be corporations that owned entire towns called corporate towns. These towns are governed under the US Constitution [1]. Big Tech has attained a monopoly that is akin to a corporate town, almost everyone in the US is on Big Tech, including children who watch YouTube regularly. Many people's entire lives are wrapped up into their online persona, which is their brand. The sheer volume of content that requires moderation on BIG TECH platforms, requiring armies of paid moderators who can get PTSD from looking at obscenities like animal cruelty. There is obviously a need to keep this obscene, lewd, lascivious, filthy, excessively violent, harassing, or otherwise objectionable, whether or not such material is constitutionally protected away from where it can cause harm. The problem

is when if you want to entire the market, that you require massive investment to fund moderators with hyper sophisticated AI technologies and if you don't have this technology, they'll shut you down like they did Parler.

E. BIG TECH takes on national security and election tasks.

On October 19, 2020, California Attorney General Xavier Becerra, a Democrat preceded by Kamala Harris, sent a letter to Mark Zuckerberg, CEO of Facebook, Jack Dorsey, CEO of Twitter, and Susan Wojcicki, CEO of YouTube urging Big Tech to suppress content critical of mail-in voting, that Russians were perpetrating a disinformation campaign to stoke racial resentment, 'suppress' non-white votes, and sow distrust in our election system.

The letter reads:

"The State of California Has a Mandate to Protect its Citizens' Voting Rights. California has a significant interest in protecting its citizens' constitutional right to vote. State laws protect citizens by, for example, prohibiting interference with voting rights through violence, threats, intimidation, and other coercive conduct (see, e.g., Civ. Code, § 52.1(b); Elec. Code, §§ 18502, 18540). State laws also prohibit knowingly distributing intentionally misleading information about the time, place, manner of voting, and voter eligibility (see, e.g., Elec. Code, §§ 18302, 18543). To further protect voters, state law requires social media companies that sell political advertisements to disclose who funded certain political advertisements and maintain an online record of such advertisements for public inspection (see, e.g., Gov. Code, § 84504.6).

The California Department of Justice will not hesitate to enforce these laws against any individual or group that violates them. However, given social media's prominence and influence in American political discourse, you share a responsibility to use the tools at your disposal to combat the dissemination of disinformation that interferes with our electoral system and to report any illegal activity detected on your respective social media platforms that interferes with Americans' right to vote. "

The use of the word However in the preceding sent is a direct threat to Big Tech that the District Attorney will use everything in his power, which includes filing antitrust action against Big Tech to break them up. The letter then uses the citation "Senate Report Vol. II, supra n.2 at p. 3", which is the Russiagate Report. Senator Kamala Harris sat on the Senate Select Committee for Intelligence behind the politically motivated Russia-gate witch hunt conspiracy theory that stoked hatred of Donald Trump and occupied our times with Big Media's constant gas lighting of Donald Trump. Big Media journalist piggy backed Trump's fame by constantly making up stories based on things Trump said that would #triggered people, meaning it gas lighted people. Currently former President Trump is on a 2-year suspension from Facebook, but he publicly States he will be running in 2024.

F. BIG TECH is a Corporate Town that tracks each citizen around the internet and in the real world via mobile devices that collect medical and election information.

BIG TECH has tracking technologies installed into almost all their apps that constantly monitor US citizens everywhere, giving BIG TECH owners and executives privileged access to Big Data that they use to maintain their monopoly. You can't go anywhere anymore without BIG TECH knowing exactly where you are, and in many cases BIG TECH is even listening to you or watching you through your computer's webcam and microphone. When you take a poop, BIG TECH knows if you have your smartphone with you. When you go to your doctor, BIG TECH knows who your doctor is. BIG TECH can use this information to deduce citizen's medical information that might violate HIPA. When citizens drop their ballots off, BIG TECH knows when you did and what your political party is. This gives BIG TECH the ability to manipulate elections through ballot harvesting where they remove votes from the party, they want to lose using their spy technology to which ballot harvesting boxes have the most Republican and Democrat votes.

The children of INDIE NEWS AND POLITICAL COMMENTARY also are highly active on BIG TECH PLATFORMS, even if they are under age 13 children often use their parent's YouTube account. The children of some of INDIE NEWS AND POLITICAL

COMMENTARY spend hours per day watching YouTube videos, which is more time than they spend engaging in school. INDIE NEWS AND POLITICAL COMMENTARY also publicly performs independent news and political commentary for the general public when users with BIG TECH accounts display the content to users who do not have BIG TECH accounts and did not consent to their terms of service.

Foreign companies and State actors for governments such as China and Russia can utilize AI algorithms to manipulate the behavior of children through BIG TECH platforms. This means that BIG TECH is some of the only businesses in the Country that require the US Military and Intelligence Agencies in order to even exist. Without the US Military and Intelligence Agencies BIG TECH would be the largest military threat to the US. Presence of children, families, and US citizens who grow up on BIG TECH platforms and must live their entire lives under their rules and they face existential military threat and constant expose to Chinese military and intelligence agency hacking and cyber war, BIG TECH is a corporate town. Many members of INDIE NEWS AND POLITICAL COMMENTARY have grown up themselves on BIG TECH platforms and had exposure to BIG TECH's AI algorithmic behavior modification technologies.

G. BIG TECH banned former US President Donald Trump to influence US politics.

BIG TECH banned US President Donald Trump citing violates of platform rules. BIG TECH supported Joe Biden and opposed Donald Trump. BIG TECH banned President Trump with the intent to influence US politics.

H. BIG TECH censors on behalf of Democrat Politicians to censor Republicans and INDIE NEWS AND POLITICAL COMMENTARY and this is an illegal campaign contribution.

In the October 19, 2020 letter from California Attorney General Xavier Becerra to Mark Zuckerberg, Jack Dorsey, and Susan Wojcicki in Argument D, the Democrat AG that sits in Vice President Kamala Harris's current seat who used information from the Russiagate Senate Selection Committee on Intelligence behind the political prosecution of Donald Trump, BIG

TECH was urged to work to suppress Donald Trump citing that Russians were trying to put out disinformation so they had to fortify Biden and suppress Trump.

On March 15, 2020 Mark Zuckerberg sent an email to Dr Anthony Fauci, the head of the President of the U.S. National Institute of Allergy and Infectious Diseases. In this email Zuckerberg starts referring to Fauci as Tony and says "As a central part of this hub, I think it would be useful to include a video from you because people trust and want to hear from our experts rather than just a bunch of agencies and political leaders."

Because BIG TECH is censoring on behalf of Democrat politicians to suppress Republicans and INDIE NEWS AND POLITICAL COMMENTARY and prop up the Democrat's narrative, this constitutes an illegal campaign contribution.

I. BIG TECH unlawfully bans INDIE NEWS AND POLITICAL COMMENTARY for criticizing religion and politicians.

Twitter suspended RSS Commentary for multiple months and the ban is still active for criticizing Islam for the following Tweet.

334

335 Twitter again suspended RSS Commentary for criticizing Kamala Harris.

Thanks for your appeal

You appealed 1 Tweet.

Cale McCollough
@RSSCommentary

@Anon35368735 She's not black! She's half Indian and half Jamaican slave trader. Defiantly not black. She's a hoe. She slept her way to the top of the Democrat party by cheating with Willy Brown, the MARRIED Democrat King maker. She's a hussy, a home wrecker, a hoe.

Nov 27, 2020, 11:12 AM

Please note that while we review your appeal, you won't be able to access your Twitter account. We'll take a look and will respond as soon as possible.

If you'd rather just delete your Tweet, you can [cancel your appeal](#).

336

337

338 Twitter also suspended RSS Commentary for criticizing Rep. Tom Malinowski, D-N.J., and
339 Rep. Denver Riggleman, R-Va. for their introduction on a bill to condemn QAnon around
340 August 26, 2020. Cale McCollough said the law makers might be pedophiles for condemning
341 QAnon. That screen shot is unavailable due to Twitter deleting it. After this tweet was taken
342 down, Cale McCollough reported being Shadow banned, which is where a platform, Twitter in
343 this case, removes a profile from public visibility. BIG TECH shadow bans accounts for
344 political reasons that are not 'Good Samaritan' actions.

345

346 Facebook suspended Cale McCollough and he was unable to like President Trump's video on
347 Facebook to show his support.

Cale McCollough

They're actually a cult that worships white supremacists as gods. You see, when you say white supremacist are the #1 public health threat to black and brown bodies, you mean that black and brown people are weak compared to white people. Even the poor white trash are more powerful than black and brown people because white people have special powers that even the people in the poor rural red state are still able to hold down the minorities in the big Democrat run cities.

351

352 Currently Cale McCollough is unable to like posts on the White House's official Facebook
353 page.

Facebook removed Cale McCollough's fact check of the Brennan Center for Justice's article Hidden in Plain Sight: Racism, White Supremacy, and Far-Right Militancy in Law Enforcement that showed the article was just making a big deal over nothing. As much as you may detest white supremacists, they do have the right to work in law enforcement and government. Disliking non-whites is not actually a sin, contrary to popular belief.

Cale McCollough

Look at the murder rates. They're SKY HIGHT! Black people kill twice as many white people as vice vera and there are 6 times as many white people, so that is a 12-to-1 kill ratio, and black people kill 6 times as many people as white people. White people in other cities can't fix the violence problems in Democrat cities; they have to take care of their own. They can't just riot, loot, and destroy their neighborhood where poor people live and need to buy food and medicine for their family, and they can't when it's burned down. There is no epidemic of police violence, there is an epidemic of Black and Mexican violence.. ✓ <https://www.ibtimes.com/white-black-crime-vs-black-white...>

J. BIG TECH unlawful censored alleged COVID and Medical misinformation.

Nowhere in 47 US Code § 230 does it give any protection for companies screening misinformation. YouTube censored multiple INDIE NEWS AND POLITICAL COMMENTARY videos for use of the CDC chart entitled 'U.S. Deaths from Coronavirus by Age Group (Feb. 1 - June 17, 2020). Some of the COVID misinformation on YouTube that gets censored is legitimately misinformation, but news presenters and commenters aren't given the ability to fact check their own content. YouTube has access to advanced AI algorithms to detect misinformation faster than content creators can detect and thus are unable to self-fact check due to Google's AI dominance. RSS Commentary had some videos taken down for what at the time

376 was the most accurate information there was at the time on on the projected deaths of COVID-
377 19 in the following chart. When RSS Commentary did become aware the videos contained
378 misinformation Cale McCollough took down the videos that contained the known
379 misinformation. However, it is not possible on YouTube to just clip out a section and insert a
380 fixed section without resetting your like count, which can be devastating to a video's view
381 count. No option was given to trim out the misinformation out of the video.
382

REAL SIMPLE NEWS

The #FakeNews Industrial Complex wants you to believe that more people have died from COVID but according to the CDC, in 2017 2813503 people died, & as of 2020-9-2, only 1841678 people have died with 4 months left in this year.
At this rate, 2.75M people will have died this year

✓ Table 1. Deaths involving coronavirus disease 2019 (COVID-19), pneumonia, and influenza reported to NCHS by sex and age group. United States. Week ending 2/1/2020 to 8/29/2020

384 YouTube cites that videos that only showed the CDC Chart of COVID deaths by age for
385 alleged Medical Misinformation that goes against World Health Organization guidelines.
386 RSS Commentary appealed to censorship in the following response, but the appeal was denied.
387 This video does not contain medical misinformation. YouTube is engaging in anti-competitive
388 practices against indie news channels like RSS Commentary in order to get Democrat
389 politicians to not break up Big Tech. The CDC admitted recently there were NEVER any
390 information proving masks would slow COVID spread and the Facui also backpedaled and said
391 COVID probably came from the Wuhan Lab. The purpose of this strike is to censor indie news
392 going forward to bias the narrative towards Democrats so Republcians will never gain power to
393 break Alphabet, Facebook, & Twitter up. Accroding to the US NIH, most Spanish flu deaths
394 were from bacterial pneumonia, most likely source was the masks. I'm an engineer who's made
395 a COVID ventilator, I now WAY more than you. You know know nothing compared to me.
396
397 Please note Fauci was misspelled Facui, Republicans was misspelled as Republcians and
398 according was misspelled as Accroding.

[CANCEL](#) [SUBMIT](#)

RSS Commentary regularly criticizing the World Health Organization and thus this rule makes RSS Commentary's videos contain WHO criticism commercially inviable.

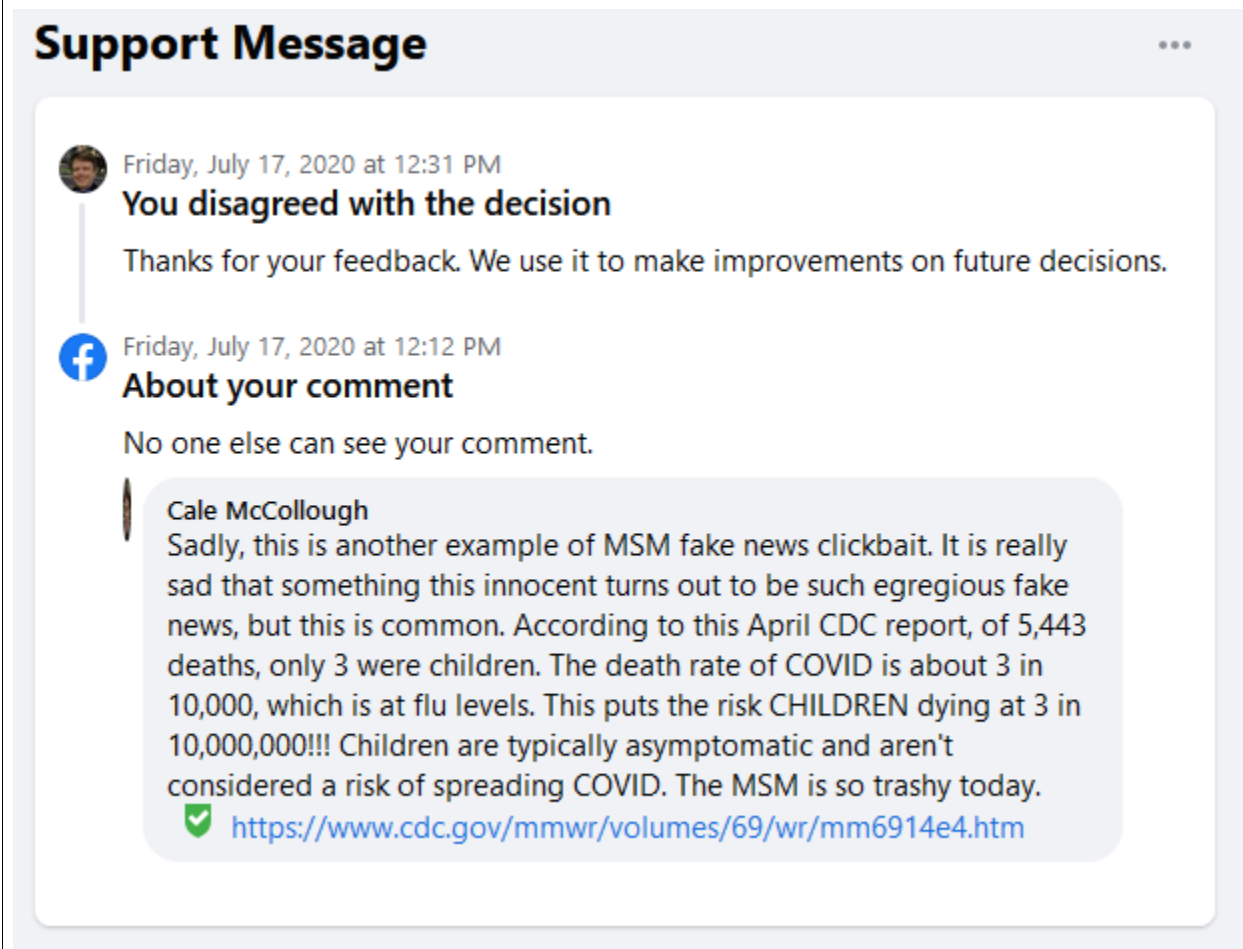

At some point this year the CDC updated the death tolls and there were dramatically more deaths than projected. The CDC has overhauled their website located at

<https://www.cdc.gov/nchs/covid19/mortality-overview.htm>

entitled "COVID-19 Mortality Overview", the total number of COVID deaths has been through the week ending 5/29/2021, 583,025 deaths, and approximately 647,312 excess deaths, which is a mid-point between 580,751 to 713,873 deaths. Subtracting the maximum number of excess deaths, and there are up to 130,848 excess deaths beyond the reported COVID deaths. Many of these deaths are due to lockdowns and mask mandates causing explosions of disease as will explained in a later argument section. At the time of the publishing of the above chart that does

after the fact include misinformation, we didn't know how many people would die, but it was known that overreacting to COVID might cause excess deaths, and by averaging out the deaths for multiple years the number of deaths may still average out to approximately the same number of deaths as was expected before COVID-19 broke out.

Facebook censored Cale McCollough for alleged spam for criticizing lockdowns, mask mandates, and Big Media when he linked to the CDC article Coronavirus Disease 2019 in Children — United States, February 12–April 2, 2020 in the following comment.

K. BIG TECH unlawful censored news, commentary, and critique of ballot harvesting and related election fraud.

Ballot harvesting is the act of private individuals collecting mail-in ballots. Ballot harvesting is

voter fraud for the following reason.

1. Computer vision scanner apps for mobile devices allow ballot harvesters to detect the party of the voter by taking a picture of the ballot signature and matching it to their voter registration data and to throw out Trump votes.
2. Ballot harvesting rings can target BIG TECH users with AI and psychological manipulation right before they send ballot harvesters to pick up their ballots, and this is election fraud.
3. Most Democrats live in big cities that are vastly more dense populations than small-to-medium sized cities and rural areas.
4. Most Republicans live in small to medium sized cities with significantly lower population density than Democrat strongholds.
5. Mail-in Voting and ballot harvesting dramatically biases elections towards Democrats because most Democrats live in big cities where the density of people is dramatically higher, and Democrats can rig the election by paying ballot harvesters to harvest private votes, Democrats will always win due to how many extra miles are needed to traverse to collect the ballots in rural areas where most Republicans live.
6. BIG TECH platforms facilitate ballot harvesting election fraud by isolating voters behind echo chambers where facts are ignored by violent mobs who have been gas lighted with rage-bait click-bait by the journalist BIG TECH approves to be artificially promoted above INDIE NEWS AND POLITICAL COMMENTARY.

Big Tech has engaged in coordinated censorship of Election fraud information, including Ballot harvesting as a method of fraud. YouTube censored the RSS Commentary video entitled "Facebook BANS 'Stop the Steal' political movement, hashtags". In this video Cale McCollough called ballot harvesting election fraud, causing the video to get flagged for Election Misinformation and taken down.

L. BIG TECH censors US Citizen's speech on the behalf of foreigners and hostile foreign governments like China.

BIG TECH doesn't censor speech because it's offensive, BIG TECH uses sophisticated AI algorithms that psychotically manipulate users to change their behavior to maximize the amount time spend on the platform. Facebook users are Facebook's number 1 products, and they receive approximately \$7 profit per user per year. The primary source of BIG TECH's money is from advertising from corporations that are either foreign owned, owned by Chinese 'Communist'/Nazi Party officials, hereby referred to as CCP, or they are corporations who are expanding into the Chines market. China is not communist. Communist is a bottom-up rule by the community with a powerful central State that organizes the communist economic machine.

Communism is based on Marxist dielectric materialism, which is where the proletariat (meaning workers) rises up and smashes the bourgeoisie (meaning land and business owning classes, typically white people). In communism private property is outlawed and violates face the death penalty or internment in gulags. This is in stark contrast to China, which has rampant capitalism. CCP members live in the lap of luxury while most Chinese live in poverty. China claims it has risen a large percent of its population out of poverty, this is false, they change the definition of poverty to fudge their numbers like they always do. The CCP has all of China under surveillance, they have their own version of Wikipedia with official party propaganda.

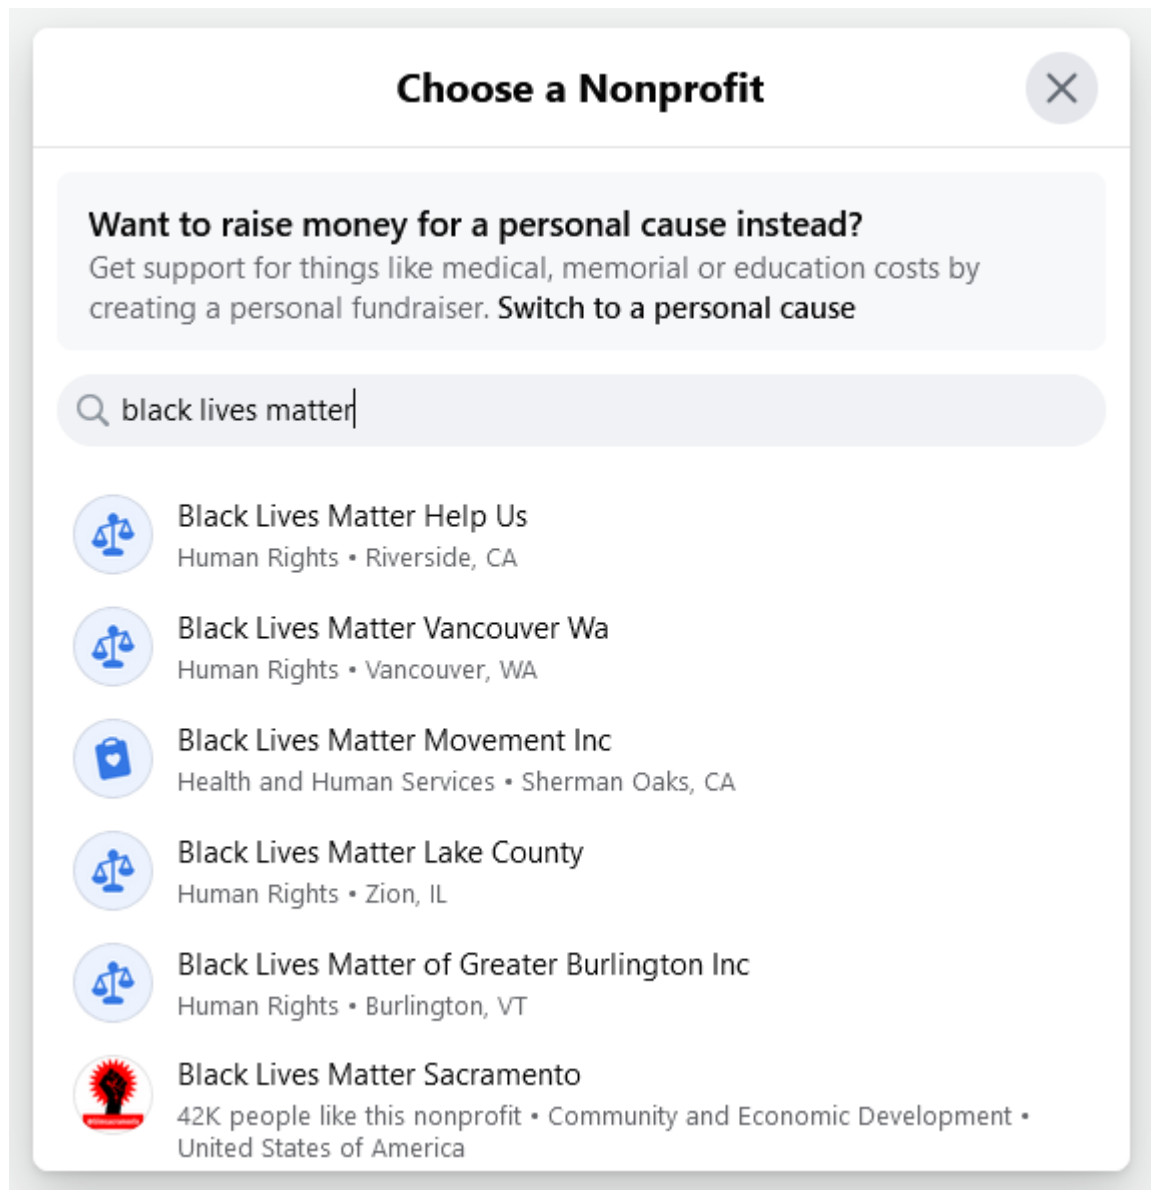

Chinese companies don't honor our antitrust laws. China has been engaging in widespread intellectual property theft the CIA refers to as Rob, Replicate, and Replace strategy that is part of the Made in China 2025 plan the CCP will replace the US as world's number one superpower and remove the US from global supply chains. CCP-controlled companies work together like a mafia with the Chinese and Russian military and intelligence agencies to cyber war and widespread IP theft to fortify Chinese and Russian companies and achieve complete market dominance over US companies using slave labor, including Uighur Muslim slave labor for the force-labor re-education concentration camps in Xinjiang China where they are committing genocide against the Uighur Muslims and other ethnic minorities. Unrestricted access to CCP controlled companies and their allies allows the Chinese 'Communist' Party to censor US speech and control our politics, which is illegal.

The reason BIG TECH is unlawfully censoring the speech of INDIE NEWS AND POLITICAL

COMMENTARY is not the content of the speech being 'otherwise offensive', but rather the contrast between the behavior of the normal humans in the class INDIE NEWS AND POLITICAL COMMENTARY and the stark contrast behavior BIG TECH's AI algorithms are psychologically manipulating the American public to behave so the public will be cash cows who spend a maximum amount of time watching ads. This has caused defamation of the character of INDIE NEWS AND POLITICAL COMMENTARY leading to direct monetary damages that artificially cause business owned by INDIE NEWS AND POLITICAL COMMENTARY to become commercially unviable, not because of the content of the speech but because of the contrast between speech allowed by BIG TECH and their foreign advertising customers.

M. BIG TECH profited from enabling BLM riots and scam fundraisers on their platform, banned January 6th rioters but not.

America has seen the worst riots of its history over the past year. After the January 6th US Capitol Siege both Google and Apple banned the social networking platform like Twitter named Parler from their app stores, and Amazon Web Services suspended their web hosting services without prior notice because of their involvement in the US Capitol Siege. If you create a fundraiser on Facebook, you'll find there are a lot of Black Lives Matter charities you can donate to as can be seen in the below picture.

511

512 Black Lives Matter, hereby referred to as BLM, started out as a good idea based on bad data.

513 The BLM narrative is that white supremacist cops are gunning down unarmed black men and

514 this has caused black people to be murdered at double the rate of white people. This is a false

515 narrative. Black Americans make up about 1/6 the US population but they account for over half

516 of all murders committed, which is almost 20,000 per year. The number of people killed by far-

517 right extremists in the US since the start of the KKK is only about 3,000 Black Americans

518 murdered. For each unarmed black man killed by police there are over 1000 black men killed

519 by black men. It's the elephant in the room. BIG TECH has been unlawfully censoring

520 Americans independent news and political commentary, but they never stop the disinformation

that is causing the riots. Facebook even directly profits by taking a small percent of the donations to BLM fundraisers.

More often than not, the money raised on BLM fundraisers doesn't go to where the fund raisers claim it will. The donated money often is absorbed into 'administrative costs'. The money BIG TECH has raised in BLM fundraisers has been used to fund riots, while BIG TECH censors all opposition to riots such as Right-wing militias from being able to use their Second Amendment Rights to serve America as a well-regulated militia. A well-regulated militia is akin to a police force during emergencies.

N. BIG TECH profits from and props up Big Media who gas light with false claims that prevents citizens from getting fair trials.

One of the most successful methods that journalist use get clicks is to gas light people. What this means is that you make them mad. RSS Commentary, one of the Plaintiffs, studied RSS feeds, RSS is a file format that most major news outlets use to publish their news digitally, and found a very high percent of the articles contained things that a politician said or did that make people angry. In the Trump Presidency there was a pervasive problem of journalist's piggy backing Trump's fame by publishing false claims about what Trump said and did to gaslight the crowd, which amped up the race riots of 2020.

In the Kenosha riots of 2020 Right-wing militia member Kyle Rittenhouse shot and killed two rioters and blow the arm off another. Rittenhouse was then politically prosecuted was forced to serve jail time for self-defense. Officer Derek Chauvin, the one who restrained George Floyd leading to a heart attack, was also not able to receive a fair trial due to Big Media profiting on pushing a false narrative that cops are trying to kill unarmed black men.

O. BIG TECH fortified Biden and suppressed Trump in the 2020 Election in "Shadow Campaign" of election engineering.

In the Times Magazine article The Secret History of the Shadow Campaign That Saved the

2020 Election, published February 4, 2021 5:40 AM EST the authors allege that there was a 'Shadow Campaign' that operated without the General public knowledge using corporate resources that constitute illegal campaign contributions to engineer the 2020 US President election, and covering up of ballot harvesting dumps that caused statistical anomalies that triggered rampant conspiracy theories around Dominion Systems voting machines. In this article the group of people who engaged in election engineering admitted their crimes to the Times Magazine reporter Molly Ball in order to get ahead of the story and control the narrative. “It was all very, very strange,” Trump said on Dec. 2. “Within days after the election, we witnessed an orchestrated effort to anoint the winner, even while many key states were still being counted.” This article was published two days before the January 6 US Capitol Siege Democrats are labeling as an 'insurrection'. This article did contribute to the riot on January 6.

In the Times Article it reads, with they meaning the Shadow Campaign:

Their work touched every aspect of the election. They got states to change voting systems and laws and helped secure hundreds of millions in public and private funding. They fended off voter-suppression lawsuits, recruited armies of poll workers and got millions of people to vote by mail for the first time. They successfully pressured social media companies to take a harder line against disinformation and used data-driven strategies to fight viral smears. They executed national public-awareness campaigns that helped Americans understand how the vote count would unfold over days or weeks, preventing Trump’s conspiracy theories and false claims of victory from getting more traction. After Election Day, they monitored every pressure point to ensure that Trump could not overturn the result. “The untold story of the election is the thousands of people of both parties who accomplished the triumph of American democracy at its very foundation,” says Norm Eisen, a prominent lawyer and former Obama Administration official who recruited Republicans and Democrats to the board of the Voter Protection Program.

That’s why the participants want the secret history of the 2020 election told, even though it sounds like a paranoid fever dream—a well-funded cabal of powerful people, ranging across industries and ideologies, working together behind the scenes to influence perceptions, change

583 rules and laws, steer media coverage and control the flow of information. They were not rigging
584 the election; they were fortifying it. And they believe the public needs to understand the
585 system's fragility in order to ensure that democracy in America endures.

586
587 The "Architect" of this plan was a gentleman named Mike Podhorzer, the senior advisor to the
588 President of the AFL-CIO, which is extremely influential in the Democrat party. Among
589 Democratic insiders, he's known as the wizard behind some of the biggest advances in political
590 technology in recent decades. Mike Podhorzer is also a supporter of Biden's open-boarder and
591 Sanctuary nation policies that are flooding large cities with illegal immigrants to boost the
592 population of the big democrat-run cities in order to control US Federal elections by diluting the
593 votes of the rural Red States. Mike Podhorzer and the Democrats don't care Open-board and
594 Sanctuary Nation policies are illegal and cause the legal immigrants in the big cities and
595 minorities and low-income people to go homeless, they just access to the illegal immigrants'
596 kids to "Vote blue no matter who", which means always vote for Democrats because
597 Republicans want to deport their parents, creating an us versus them conflict that breeds racial
598 resentment and hatred. Podhorzers said "We desperately need to systematically 'red-team' this
599 election so that we can anticipate and plan for the worst we know will be coming our way."

600
601 On March 3, Podhorzer drafted a three-page confidential memo titled "Threats to the 2020
602 Election." "Trump has made it clear that this will not be a fair election, and that he will reject
603 anything but his own re-election as 'fake' and rigged," he wrote. "On Nov. 3, should the media
604 report otherwise, he will use the right-wing information system to establish his narrative and
605 incite his supporters to protest." The memo laid out four categories of challenges: attacks on
606 voters, attacks on election administration, attacks on Trump's political opponents and "efforts
607 to reverse the results of the election."

608
609 Protecting the election would require an effort of unprecedented scale. As 2020 progressed, it
610 stretched to Congress, Silicon Valley and the nation's statehouses. It drew energy from the
611 summer's racial-justice protests, many of whose leaders were a key part of the liberal alliance.
612 And eventually it reached across the aisle, into the world of Trump-skeptical Republicans
613 appalled by his attacks on democracy.

In March, activists appealed to Congress to steer COVID relief money to election administration. Led by the Leadership Conference on Civil and Human Rights, more than 150 organizations signed a letter to every member of Congress seeking \$2 billion in election funding. It was somewhat successful: the CARES Act, passed later that month, contained \$400 million in grants to state election administrators. But the next tranche of relief funding didn't add to that number. It wasn't going to be enough.

Private philanthropy stepped into the breach. An assortment of foundations contributed tens of millions in election-administration funding. The Chan Zuckerberg Initiative chipped in \$300 million. "It was a failure at the federal level that 2,500 local election officials were forced to apply for philanthropic grants to fill their needs," says Amber McReynolds, a former Denver election official who heads the nonpartisan National Vote at Home Institute.

In Philadelphia, for example, advocates distributed "voting safety kits" containing masks, hand sanitizer and informational brochures. "We had to get the message out that this is safe, reliable, and you can trust it," says Hannah Fried of All Voting Is Local.

In the end, nearly half the electorate cast ballots by mail in 2020, practically a revolution in how people vote. About a quarter voted early in person. Only a quarter of voters cast their ballots the traditional way: in person on Election Day.

Laura Quinn, a veteran progressive operative who co-founded Catalist did research that showed that engaging with toxic content only made it worse. "When you get attacked, the instinct is to push back, call it out, say, 'This isn't true,'" Quinn says. "But the more engagement something gets, the more the platforms boost it. The algorithm reads that as, 'Oh, this is popular; people want more of it.'"

The solution, she concluded, was to pressure platforms to enforce their rules, both by removing content or accounts that spread disinformation and by more aggressively policing it in the first place. "The platforms have policies against certain types of malign behavior, but they haven't

645 been enforcing them,” she says.

646
647 Quinn’s research gave ammunition to advocates pushing social media platforms to take a harder
648 line. In November 2019, Mark Zuckerberg invited nine civil rights leaders to dinner at his
649 home, where they warned him about the danger of the election-related falsehoods that were
650 already spreading unchecked. “It took pushing, urging, conversations, brainstorming, all of that
651 to get to a place where we ended up with more rigorous rules and enforcement,” says Vanita
652 Gupta, president and CEO of the Leadership Conference on Civil and Human Rights, who
653 attended the dinner and also met with Twitter CEO Jack Dorsey and others. (Gupta has been
654 nominated for Associate Attorney General by President Biden.) “It was a struggle, but we got to
655 the point where they understood the problem. Was it enough? Probably not. Was it later than
656 we wanted? Yes. But it was really important, given the level of official disinformation, that they
657 had those rules in place and were tagging things and taking them down.”

658
659 After election day, the Shadow Campaign set into action to uphold the results of the 2020
660 election, with AFL-CIO working with U.S. Chambers of commerce, organized by Neil Bradley,
661 two organizations that have historically been at odds due to AFL-CIO backing Democrats and
662 U.S. Chamber of Commerce backing Republicans. Black Lives Matter rioters were threatening
663 to burn the Country down if Trump was reelected and they were determined to use all means
664 necessary to achieve the election outcome they wanted and had invested so much time and
665 money into. The Shadow Campaign then used BIG TECH platforms to control all the choke
666 points of information to control the national dialog over alleged voter fraud. The Shadow
667 Campaign used ballot harvesting and covered up evidence of their use of ballot harvesting,
668 which may violate Federal election laws against destruction of election related materials.

669
670 **P. BIG TECH biases search results in favor of Big Media and does not classify INDIE**
671 **NEWS AND POLITICAL COMMENTARY as real news.**
672

673 BIG TECH is a monopoly that has their own news product. BIG TECH is the arbiter of truth
674 that classifies your news as either the real news, or the fake news. Forbes is a former American
675 news outlet that was sold to Integrated Whale Media Investments in 2014 and now operates out

676 of Hong Kong. As you can see in this screen capture of YouTube's news product, that Forbes
677 Breaking News is featured in the news section, but the Epoch Times news program Facts
678 Matter with Roman Balmakov, which is a company was founded in 2000 by John Tang and a
679 group of Chinese-American Falun Gong practitioners. Falun Gong is an ethnic minority that
680 was targeted for genocide by Cultural Marxism in China. YouTube props up the enemy of
681 Falun Gong while suppressing legitimate news from Falun Gong. Most major news outlets such
682 as NBC, ABC, Bloomberg, CNN, hereby referred to as Big Media, are all deeply infested in
683 'communist' China. The quotes around communist are there because there is no private property
684 or capitalism allowed in communist countries, only in fascist countries. Most of the news
685 outlets promoted by BIG TECH as legitimate news are in fact censored just enough to not
686 interfere with the respective Big Media outlet's parent company's Chinese business connection.
687 This presents a national security concern.

Q. BIG TECH has defamed and caused psychological and emotional injuries to INDIE NEWS AND POLITICAL COMMENTARY members as described in each member's "Declaration in Support of Petition".

Each member of the class of people INDIE NEWS AND POLITICAL COMMENTARY has a different list of psychological and emotional injuries unique to their personal business and public relationship with BIG TECH. Each member of the class INDIE NEWS AND POLITICAL COMMENTARY shall submit a document with this case file with a title that begins with "Declaration in Support of Petition", and this Declaration shall include a description of the injuries.

R. BIG TECH caused \$1.6 billion damages to INDIE NEWS AND POLITICAL COMMENTARY and is liable for the damages.

BIG TECH has an unlawful monopoly that control the speech of a large percent of the US and the world. BIG TECH has unlawfully abused 47 US Code § 230 to unlawfully censor Republicans on the behalf of Democrat lawmakers related to Kamala Harris that was intended to fortify the election for Biden to suppress Trump on the false pretense that Russian disinformation was enough of a threat to the election to justify using a 'Shadow campaign' to stifle INDIE NEWS AND POLITICAL COMMENTARY to prevent our products from being commercially viable in order to prop up media outlets with deep ties in fascist China. BIG TECH's actions are a violation of the Sherman anti-trust act. BIG TECH's censorship of INDIE NEWS AND POLITICAL COMMENTARY was intended to censor US Citizens independent news and political commentary in the future that has not occurred yet.

S. This Court has jurisdiction over these questions of law at hand and this is the most suitable Court to hear these questions of Federal Law.

BIG TECH operates and is controlled from Silicon Valley California, INDIE NEWS AND POLITICAL COMMENTARY are lawful residents of the United States, and both are subject to

the laws of the United States of America and this Court has original jurisdiction in these questions of law. INDIE NEWS AND POLITICAL COMMENTARY has filed this action within the time allowed by US Law and the question of law persists in the future and is a matter of National Security that requires the Court to take immediate action by issues the requested orders. The Questions of law that we are respectfully requesting the Court to decree an answer to answer are:

Does BIG TECH have a monopoly based on Silicon Valley?

1. Is BIG TECH a corporate town?
2. Is BIG TECH's used sophisticated AI algorithms to modify the public's behavior through psychological manipulation protected under 47 US Code § 230?
3. Has BIG TECH unlawfully censored INDIE NEWS AND POLITICAL COMMENTARY using 47 US Code § 230 on behalf of Democrats?
4. Is BIG TECH's used sophisticated AI algorithms to modify the public's behavior through psychological manipulation an illegal campaign contribution to the Democrats?
5. HAS BIG TECH caused damages to INDIE NEWS AND POLITICAL COMMENTARY and are they liable for the damages?

THEREFORE, we respectfully request the Court to:

1. Order BIG TECH to pay INDIE NEWS AND POLITICAL COMMENTARY \$1.6 billion in compensation for tort liabilities from damages.
2. Issue a declaratory judgement that decrees BIG TECH is a corporate town.
3. Order BIG TECH to be broken up into one platform per unique independent company that operate in compliance with US antitrust laws.
4. Order BIG TECH cease and desist election engineering.
5. Order BIG TECH be held liable for attorney's fees.
6. Issue any other relief to which petitioner may be entitled.
7. Give Cale McCollough a gold star.

Subject: Thanks and Ideas

Tony:

I wanted to send a note of thanks for your leadership and everything you're doing to make our country's response to this outbreak as effective as possible. I also wanted to share a few ideas of ways we could help you get your message out, but I understand you're incredibly busy, so don't feel a need to reply unless these seem interesting.

This isn't public yet, but we're building a Coronavirus Information Hub that we're going to put at the top of Facebook for everyone (200+ million Americans, 2.5 billion people worldwide) with two goals: (1) make sure people can get authoritative information from reliable sources and (2) encourage people to practice social distance and give people ideas for doing this using internet tools. This will be live within the next 48 hours.

As a central part of this hub, I think it would be useful to include a video from you because people trust and want to hear from experts rather than just a bunch of agencies and political leaders. This could be done in a number of formats if you're open to it. Probably best would be recording a Q&A where you answer people's top questions, but we'd be open to other formats too.

I'm also doing a series of livestreamed Q&As with health experts to try to use my large following on the platform (100 million followers) to get authoritative information out as well. I'd love to have you do one of these Q&As. This could be the video we put in the Coronavirus Hub or it could be a different thing that we distribute separately, but I think it could be effective as well.

Finally, (b) (6)
(b) (6)
(b) (6)
(b) (6)

Again, I know you're incredibly busy, so don't feel the need to respond if this doesn't seem helpful. If it's easy to talk live, give me a call anytime on my mobile phone: (b) (6).

Thanks again for everything you're doing.

Mark

Subject: RE: offer from Mark Zuckerberg

I will write to or call Mark and tell him that I am interested in doing this. I will then tell him that you will get for him the name of the USG point of contact. I agree it should be Bill Hall who could then turf to the White House Comms if he wishes

Subject: ASF: offer from Mark Zuckerberg

Per email below, Mark Zuckerberg has extended a few offers to do videos with you that we would be happy to seek clearance on for you to do, if you are amenable. These would have the weight and impact of television – really, more so. Please advise if you want to do and we will seek clearance with VP office and work with Patty to sort out the logistics.

But an even bigger deal is his offer (b) (4)
(b) (6) The sooner we get that offer up the food-chain the better. I gave Bill Hall a heads-up about this opportunity and he is standing by to discuss this with HHS and WH comms, but I didn't want him to do anything without you being aware of the offer. Is it OK if I hand this aspect off to Bill to determine who the best point of contact would be so the Administration can take advantage of this offer, soonest?

Do you plan to call MZ? His cell number is in his message below.
